SKILLS

JavaScript, React, Redux, HTML, CSS, Ruby, Ruby on Rails, Mongoose, MongoDB, Node.js, Express.js, SQL, SQLite3, PostgreSQL, Webpack, jQuery, Git, Heroku

PROJECTS

NICFLIX (Ruby on Rails, React, Redux, JavaScript, HTML5, CSS3, PostgreSQL, Webpack)

[live](#) | [github](#)

A fully-featured, Nicolas Cage themed, near-identical clone of the Netflix web app

- Utilized a combination of Javascript, CSS, and creativity to perfectly mirror the hover look and functionality of Netflix's movie thumbnails.
- Incorporated Active Storage with Amazon Web Service S3 services to store image and video references in a PostgreSQL database while utilizing AWS data storage.
- Built a versatile React powered search component that handles user search, browsing by genre, and a CRUD list feature and delivers instant search results to the user.

KILLCOUNT (JavaScript, HTML5, CSS3, Canvas)

[live](#) | [github](#)

An interactive record of movie character kill counts

- Built an interactive visualization of movie character kill counts using purely Javascript, HTML, and CSS.
- Designed mini-game logic and animation using HTML Canvas.
- Deployed eye-catching, sleek animations by utilizing a combination of javascript and CSS.

EXPERIENCE

Project Manager

Isirey Builders

July 2014 - Dec 2020

- Headed 9 residential housing construction projects totalling 2.4M USD in value, generating 700,000 USD in company profits.
- Managed over 100 workers of different skills, ranging from laborers, to carpenters, to electricians.
- Modernized company's bookkeeping and employee management system, from an antiquated paper system to a computerized system based on Excel and programmed macros.

Game Developer/Writer

Opal Squad

Jan 2013 - June 2014

- Launched a Kickstarter campaign and was successfully able to crowdfund 60,000 USD to start a video game project.
- Built a full game system from the ground up using a proprietary game engine language. (which is an offshoot of C++)

Data Analyst

Citibank

March 2011 - December 2012

- Built Excel macros and wrote VBA scripts to automate data quality checks for reports from 20 countries, reducing analysis time by 90%
- Leveraged custom SQL queries to create specialized data reports for various departments
- Received awards for the above-mentioned optimization initiatives.

EDUCATION

Web Development - App Academy

2021

Immersive software development course with a focus on full-stack web development, which entailed 1000+ hours of coding.

MBA - University of the Philippines

2014

BS Management Information Systems - Ateneo de Manila University, Philippines

2011
